Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 14-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant has not provided sufficient structure to support the functional or operational language presented in lines 8-10 of claim 14. As such, it is unclear how the legs are capable of absorbing energy in an accident involving the vehicle and being arranged, subsequent to an accident, for the horizontal portion to bend and the leg to be lifted from the vehicle once the energy has been absorbed. Similarly, note the functional or operational language of claims 15 and 16.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 3636

applicant regards as the invention. In claims 14-16, it is unclear if the horizontal portion and the thigh portion are intended to be the same feature.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14, 15 and 16, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by EP (0844938). Note the seat body (10), sockets (note that 82 extends into these, as shown in Figure 7), divider means (13), legs (83), and horizontal or thigh portion (82). Also note that the legs are capable of absorbing energy in an accident and are capable, subsequent to the accident, of having the horizontal portion bend and the leg to be lifted from the vehicle once the energy has been absorbed. Also note that the forward end of the horizontal portion is capable of being bent upwardly in the event of a crash. Additionally note that the thigh portion extends out from the side of the seat and is capable of bending upwardly away from the seat.

Allowable Subject Matter

Claims 8-10, 12 and 13 are allowed.

Response to Amendment/Arguments

Applicant's response filed October 5, 2007 has been fully considered. Remaining issues are described in the above sections. Applicant's amendments/arguments have rendered claims 8-10, 12 and 13 as allowable. Reconsideration of claim 14 has necessitated new grounds of rejection. Newly filed claims 15 and 16 have been rejected.

Conclusion

This Office action has not been made final since it includes new grounds of rejection not necessitated by Applicant's amendment.
